CANDIDATE HEARST CONTESTS ELECTION

He Is Aided By An Array of Prominent Lawyers.

BALLOT BOXES HELD BY POLICE

Justice Gaynor, of the Supreme Court, Ordered the Police to Turn Over Ballots to Election Board—Chairman Would Not Accept Them.

New York, Nov. 10—Aided by an array of legal talent in which are lawyers of great prominence not only as masters of their profession, but also as leaders in more than one movement for good government in this city, William R. Hearst has begun his fight in the courts for the mayoralty which he believes he won in Tuesday's election and his first step has created a situation apparently without precedent. Last night he obtained an order from Justice Gaynor of the supreme court directing the police to turn over all ballot boxes to the board of elections at once. The police obeyed the order as far as they could, but when they proceeded after midnight hours, to the election board's office, there was no one there to take custody of the boxes and the policemen were compelled to remain in the street for hours guarding the repositories of the people's votes.

Later John K. Voorhees, president of the board, refused to accept the responsibility in the matter pending advice from the corporation counsel. Mr. Voorhees is a Democrat and when his decision was made known, the Hearst men turned to Charles W. Page, a Republican member of the board, but he also declined to act and then the president was left in the strange position of trying to carry out the court's orders, but was unable to do so.

The street in the vicinity of the election board offices presented a strange sight as hundreds of policemen stood on guard around the patrol wagons and other vehicles in which the boxes had been conveyed from the various precinct station houses.

Mr. Hearst's order was obtained from Justice Gaynor after the circulation of a story that a printing firm had been turning out large numbers of fac similies of the official ballot and that these were to be marked for McClellan and placed in the ballot boxes in place of Hearst ballots to be removed. The moment this rumor reached Hearst headquarters it was decided that the ballot boxes ought not to remain longer in the station houses and the application of Justice Gaynor was made as quickly as the papers could be drawn up.

Among the attorneys aiding Hearst is William M. Ivins, the Republican candidate for mayor in Tuesday's election. Mr. Ivins volunteered his services to Mr. Hearst and the offer was accepted. Another attorney acting for Mr. Hearst is Judge John F. Dillon, who was at one time judge of the supreme court of Iowa.

Maloney, Republican leader of the fifth ward, who is charged with conspiracy to conduct an illegal election, twenty witnesses have been summoned. The charge is based on alleged charges of fraud.

Attachments were served today upon the officers of sixteen election precincts, for failure to make returns of the election to the prothonotaries office, as provided by law.

HORRIBLE DETAILS OF MASSACRE

American Missionaries Were Subjected To Terrible Tortures Before Death

Hong Kong, Nov. 10.—Dr. Machle, the American missionary who escaped the massacre at Lienchow, confirming the previous accounts of the outbreak, adds horrifying details of the atrocities committed on the American women.

When the disturbances commenced the mob seized Miss Chestnut and Mrs. Machle and exposed them to public view in the Chinese temple. Amy Machle, the doctor's ten-year-old child, was carried off and flung alive into the river. The rioters stripped Miss Chestnut naked and flung her into the river. While the two were struggling in the water three Chinamen speared them. Miss Chestnut's body and Amy Machle's head were pierced.

Mrs. Machle appealed to the rioters, but the mob stoned her brains out, stripped the body and flung it into the river.

The mob then Captured Mr. and Mrs. Peale, stripped them naked, exposed them for 15 minutes, clubbed Mr. Peale to death in his wife's presence and subsequently killed Mrs. Peale in the same brutal fashion.

The Mutineers Surrendered After Killing a Lieutenant.

Rio Janiero, Nov. 10.—The mutineers in the fortress of Santa Cruz surrendered to the authorities this morning.

The mutineers prior to their surrender killed and mutilated a lieutenant. Order has been restored.

New York, Nov. 10.—A Buenos Ayres dispatch to the Herald dated Wednesday says:

A revolution has just broken out in Rio Janiero against the Brazilian government. It is both military and naval. The entire garrison of the capital has rebelled, and the squadron in the harbor has sided with the revolutionists, and threatens to bombard the city.

Hundreds of persons have been killed in encounters in the streets. One dispatch says that the trouble began with a mutiny of the garrison of Port Santa Cruz, due to the ill-treatment of a sergeant by the officers in command. Colonel Pedro Ino was arrested and Major Freire and an ensign were killed. Troops were sent there to quell the mutiny. At the Brazilian legation there is no news of the outbreak but Brazilian residents here say the revolution would not surprise them, as the chiefs of the late revolutionary attempt were recently pardoned, the principal leader, Lauro Sodre, who was very active.

SHERIFF NELMS SAVES NEGRO.

Black Brute Who Assaulted Mrs. Alice Moore Is Arrested.

Atlanta, Nov. 10.—Early Thursday morning, a negro named Jim Walker, who had been arrested at Fairburn, Ga., by the officers at that place, for the assault upon Mrs. Alice Moore at her home at Brookwood, near this city, several weeks ago, was carried before Mrs. Moore at her home for identification. She said positively that he was the negro.

A crowd then headed by John Moore took the prisoner from the officers and started to mete out speedy justice to the brute.

The Fairburn officers struggled with the crowd, but were unable to successfully resist them.

The mob had possession of the negro and had already placed a rope around his neck when Sheriff Nelms arrived on the scene in an automobile.

The sheriff pleaded with the mob to turn the prisoner over to him, which they did, and the negro was brought to Atlanta in an automobile with the rope around his neck and placed in the Tower.

PREPARING TAFT'S REPORT.

Will Strongly Urge Former Recommendations to Congress.

Washington, Nov. 10.—While Secretary Taft is away officials of the state department are preparing data for his annual report to congress. It has not yet been determined whether the report will embrace the Panama canal, but it is supposed that the canal will be considered in a separate document.

It was the intention of Secretary Taft when he left for the isthmus to devote as much time as possible to the preparation of his report and that he would also put in form such views as he wished to express regarding the canal. As to army matters it is known that the secretary does not intend to make very many recommendations, but he will strongly renew his recommendation for an increase of the medical corps and for legislation which will increase the efficiency of the ordnance corps which is now short of officers. Various recommendations have been made by various officers for increases in the army.

Midshipmen Are Commended.

Washington, Nov. 10.—Secretary Bonaparte has written letters to two enlisted men on the battleship Ohio, commending them for their heroic conduct in saving a fellow blue jacket from drowning. While the Ohio was off Taku, China, recently, A. F. Clegg and T. G. Freeman, ordinary seamen, were thrown into the water by the breaking of a staging rope. Clegg's jawbone was broken from the fall. Freeman attempted to rescue Clegg but the latter seized him about the neck. Frederick W. Klaus, another sailor, jumped overboard and saved Clegg, Freeman saving himself. The bravery of Freeman and Klaus has been personally recognized by the secretary.

LARGE CONVENTION AT CHATTANOOGA

Quarantine and Immigration Conference in Session.

ABOUT 300 DELEGATES MEET

Fourteen Southern States Are Represented—Welcomed by Governor Cox, of Tennessee Governor Vardaman and Others Make Talks.

Chattanooga, Tenn., Nov. 10.—Almost 300 delegates representing fourteen southern states faced Governor John I. Cox today when he called to order the southern conference of the quarantine and immigration.

Present at the opening sessions of the convention were Governors John I. Cox, of Tennessee, N. C. Blanchard, of Louisiana, J. K. Vardaman, of Mississippi, R. B. Glenn, of North Carolina, D. C. Heywood, of South Carolina, and A. J. Montague, of Virginia.

Governors Broward, of Florida, Terrell, of Georgia and Dawson, of West Virginia, were delayed until later in the day.

Louisiana led the states in the size of her representation with 60 delegates; Alabama had 25, Mississippi 20 and Georgia 25.

Senators Frazer of Tennessee and Mallory of Florida, 18 congressmen from the southern states, Surgeon General Wyman, of the Marine hospital service, and other prominent medical authorities, were on hand.

The immense auditorium was handsomely decorated with the national colors and presented a most attractive appearance.

Governor Cox in calling the convention to order explained the object of the gathering to be to prevent the coming to the south of the pauper and criminal classes from Europe which now are flooding the west and northwest. Also to provide for uniform legislation by the southern states which should have the approval of the national congress and thus have the force of constitutional law, that a citizen going to any part of the south in times of epidemics should know exactly what conditions he would meet.

An invocation by Rev. Luther Freeman, pastor of the First Methodist church, was followed by addresses of welcome by Senator James B. Frazer, of Tennessee; Mayor William L. Patterson, of Chattanooga, and by Lapsley G. Walker, editor of the Chattanooga Times.

Senator Frazer advocated strongly the federal control of maritime quarantine, suggesting that if infection from foreign sources could be kept from our shores, the more difficult question of interstate quarantine would be simplified and possible eliminated from the problem.

Governor Vardaman, who made the first response to the addresses of welcome, was received with prolonged applause.

There is no question, he declared, of the possibility of keeping yellow fever out of the south. He stated his idea to be that the absolute control of all seaports should be vested in the federal government.

He stated, however, that he opposed federal interference in the control of state affairs.

Charles P. Lane, president of the Alabama Commercial association, in a response to the welcome, spoke mainly on the matter of immigration.

Mississippi Prohibitionists.

Jackson, Miss., Nov. 10.—Rev. W. H. Featherston, chairman of the finance committee appointed by the prohibition convention to raise funds to conduct the fight against the C. O. D. liquor traffic, will issue an appeal tomorrow to the civic bodies and law and order leagues of the state to send in their contributions. The appeal will set forth fully the object of the fight, and will also urge the launching of local organizations of all towns where such do not now exist for the purpose of aiding in the campaign against the C. O. D. business.

COUNTY DADS MADE A FINE PURCHASE

Expended $8,000, Which Will Bring County 7 per Cent.

HELPED GOOD CAUSE, TOO

Committee of Prominent Citizens Called Upon the Board, Explained a Financial Help Essential, and All Were Benefited by Process.

The county commissioners are nothing if they are not conservative, for which they are to be complimented, and their constituents congratulated for placing such trustworthy men in office. The board has made several wise moves, but the latest and one of the most business-like was the purchase of the Dormitory property, located on East Main street, N., and which is now paying seven per cent on the investment, involving $8,000.

The action came about in this way: As is well known, the city of Gainesville and the school board were required to purchase the old Seminary buildings and property, the city and school interests having pledged to pay the State a certain amount for the same, in the event the University of Florida was located here.

At the last meeting of the City Council it was agreed to purchase the property known as the Dormitory at a price not to exceed $8,000. A committee of representative citizens appeared before the Board of County Commissioners at its last meeting, and explained that the city was willing to purchase the Dormitory if the board would combine with the county school board in the purchase of Seminary Hall and property, the valuation of which was placed at $15,000. The committee, which was evidently authorized to act in the premises, stated that they desired the commissioners to invest $7,500 as their interest with the school board, and that it was absolutely essential that this expenditure be made to raise the amount guaranteed to the State in order to secure the University.

After figuring the matter for awhile, the board made the proposition that if it was absolutely essential to purchase the building, the board would invest no funds without certain provision. This provision was that if the property had to be purchased, if the city was willing to invest $7,500 as the city's interest with the school board, the board of commissioners would pay $8,000 for the Dormitory.

After this question had been debated for awhile it was agreed to, with the result that the county will own the Dormitory instead of a partial interest in the Seminary hall and grounds.

This investment is deemed one of the wisest ever made by any board of county commissioners in the history of the county. The property is now being rented at $60 per month, and if any change is made in the rental it will be in the nature of an increase, as rents are advancing every day, and will continue to advance. It means that the county will make seven per cent on an investment of $8,000, and they have assisted the city and county in perfecting a purpose as well.

Whether or not the City Council will concur in the action is not known, but it is naturally supposed that they will, since the entire movement has been brought about for educational purposes, as provided for the recent bond issue of $50,000.

HUNTERS ARE PLENTIFUL.

Many Sportsmen Are Daily Taking Advantage of Hunting Season.

The hunting season is now on in full force, and daily the sportsmen are in the fields in search of the festive quail. As a result hundreds of the favorite birds are killed every day, and notwithstanding the fact that the law only allows twenty quail to the gun, or forty to the party, each day, the hunters are having lots of sport.

There is no law against squirrels and the festive little animals of the forest are being slayed right and left. One sportsman alone succeeded in bagging eighteen squirrels in a short time recently.

CAPTAIN YOUNGLOVE RETURNS.

Has Been on Extended Tour of the West—Glad to Get Home Again.

"I'll tell you, boys, I am glad to get home again," remarked Captain G. D. Younglove to a party of friends Thursday, as he sat in an easy rocker in front of the Brown House and enjoyed a fine cigar.

Captain Younglove has been absent on a trip to the Far West and Canada, and during this trip learned a great deal which he did not know before, he good-naturedly admitted. He spent several weeks in Colorado, during most of the time at Boulder. The crops of Colorado are fine, he said, especially in grain, where irrigation can be secured. From forty to fifty thousand bushels of wheat per acre is nothing uncommon. The sugar beet industry is the principal industry of the State. From this beet, as the name indicates, sugar is made. But Captain Younglove states that the product is not near so good as the product from sugarcane, as it requires double the amount for the desired purpose. The cane sugar also brings a much better price.

From Colorado Captain Younglove proceeded to Los Angeles, California. In this trip he did not have much opportunity to see the country, as the journey was made at night through California. He was not much impressed with the orange groves, although he noted that fruit hung on the trees in July, when he was there. The foliage was fine and the trees looked well, but the fruit did not appear to be any too solid. The vineyards and English walnut groves, however, showed up to better advantage.

Captain Younglove visited San Francisco also. While he is not impressed with the country, he could not help but admire the modern architecture of both Los Angeles and San Francisco buildings, and the progressive spirit of the people of California.

Captain Younglove also visited Seattle, Wash., Portland, Ore., and points in Western Canada, and is greatly impressed with his trip, though he is content to remain in Florida.

PEOPLE ARE PAYING.

Collector Dickinson Has Issued Many Licenses Within Few Days.

Collector Dickinson says he is convinced that advertising pays. In a recent issue of The Sun Collector Dickinson stated that a great many business men were negligent in paying their license tax, and that delinquents would be reported to the grand jury at the next term of the circuit court, which will convene here Monday.

"These fellows have been moved as never you saw them before," declared the collector. "The notice in The Sun put them to thinking, with the result that many have come and settled their license tax. There are a great many more, however, and if these do not pay now they will be subjected to a great deal of annoyance and extra expense, as I am compelled by law to report every man who is subject to license, and who is doing business without the license."

Collector Dickinson states that there are many merchants in Gainesville who have not complied with the license law, and he will certainly report them if they have not paid by the time the grand jury meets.

WEST VIRGINIANS HERE.

Party of Six Arrived Thursday and Others Will Follow

West Virginians are becoming quite prominent among those from other States who are locating here. Several natives of that State have come to Gainesville, settled and engaged in business, and have been so well pleased that they have induced many friends to come and make their homes in or near Gainesville.

Those who arrived Thursday were Mrs. Edward Albright, Miss Fannie Albright, D. F. Hartman and Bruce Watson of Terra Alta, Mrs. E. Falkenstine of Craneville, and O. E. Hunter of Rowlesburg.

Mrs. Albright, Miss Albright and Mrs. Falkenstine will be guests of Mr. and Mrs. A. S. Albright. Mr. Watson is a brother of Mrs. George Forman of this city, and will spend the winter here.

A party of twenty-eight will leave Terra Alta some time during next month with a view of locating in Gainesville and vicinity, and altogether the West Virginia contingent will prove quite an addition to Gainesville's population.

Had a Fine Meeting.

Notwithstanding the fact that only two candidates were initiated into the mysteries of Eldom Thursday evening, Gainesville Lodge No. 980 held a very enjoyable meeting, and all present felt better from the teachings of the order at the closing of the lodge.

The Elks order is one of refinement. While there is something amusing in the work, it is at the same time serious, and puts "a fellow to thinking" how bad he has been, or how bad he might have been in the past. The order is select, and composed of a number of the best people in Gainesville and surrounding country. It will always stand as one of the best and most influential lodges of the city.

NEWS OF CITY AND COUNTY CONDENSED

A large number of hands have been engaged for the past few weeks improving the service of the Southern Bell Telephone Company in this city. The company, which has always given a good service, proposes to improve the same, with the result that they are insulating all wires, which will prove a protection from inclement weather.

These tickets will be on sale November 20th and 21st; final limit of same will be November 30th. For full information or sleeping car reservations see Atlantic Coast Line agents or write Frank C. JUMPED THE JOB.

Carpenters Quit Work on the Episcopal Church and Leave the City.

On Monday there were three carpenters from Jacksonville who arrived in the city that day, set to work on finishing up the carpenter work on the roof of the new Episcopal church, to make it ready for the slaters to finish the work.

When they came here one of the workmen said they were told there was about a week's work, but that it could not be done by the three carpenters and two laborers in three weeks.

They worked up to Thursday, when the three men quit work and returned to Jacksonville. One of them said that the job on the church only paid $2.50 per day, and that he could get a four-months' job in Jacksonville at $3.50 a day, so they all hiked.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, manager of The Republican of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.

Remains Taken North.

Jos. G. Hyatt, a prominent lawyer of Westport, Conn., who came here for the remains of Dr. George B. Bouton, who died Monday, left with the corpse yesterday.

Mr. Hyatt is a very clever gentleman, and notwithstanding that he was here only a short time, expressed himself as being pleased with the city and those whom he met. He is a prominent secret society man, and is past noble grand of Our Brothers Lodge, I. O. O. F., Norwalk, Conn.

Upon the arrival of Dr. Bouton's remains at his home they will be interred in the family burying ground, where his devoted wife has rested for many years.

Deceased is survived by two nieces, Mrs. Minnie Blakeman and Mrs. Nellie Perry of Shelton, Conn., and a nephew, Geo. B. B. Polk of Brooklyn, N. Y.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Disinfectiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

SACRED CONCERT.

A Musical Treat Which Was Enjoyed by a Small Audience.

The sacred concert at the Episcopal church last evening was one of the best musical entertainments held in this city for a long time. The selections were of a high class and their rendering was highly gratifying. "In Old Judea," a selection by the orchestra composed of Miss Christine Richards, 1st violin; Miss Minnie Hampton, 2d violin; B. H. Chase, flute, and Mrs. R. A. Becker, pipe organ, was the opening number and performed in a faultless manner.

Miss Lovey Goode sang two solos, "Rest," and "Jesus, Lover of My Soul." There is a marked improvement in her voice since we last heard her sing, and she rendered both selections very brilliantly. The duet by Miss Goode and Mr. Hodges, tenor, was also a pleasing number.

Mr. J. A. Goodwin sang "Dream of Paradise" in his best manner, his voice in the upper register being strong and tones perfect.

Each selection of the orchestra, as well as the trio for two violins and the organ, was most heartily enjoyed and played with care as to expression. The two young ladies bring forth full and perfect tones on the violin. Mrs. Becker, who has charge of these entertainments, expects to have them at regular intervals during the winter, and if they are as good as the first, will deserve large audiences.

MEANS—EVINS.

Wedding at High Noon at Bride's Home in Evinston.

Evinston, Nov. 10.—At the beautiful home of her mother, Mrs. Mary W. Evins, at high noon Thursday the accomplished and lovely Miss Sara Augusta Evins was married to Mr. James W. Means of McIntosh. The Rev. C. M. Gordon performed the ceremony.

Mr. Means is the youngest son of Judge G. W. Means, who came here from South Carolina over sixty years ago and did more than any other man to develop this section. The son is worthy of his noble sire. Miss Augusta Evins is a daughter of the late Capt. W. D. Evins, a gallant captain in the Confederate army, and loved by all for his kindness and exemplary life. They have many friends in South Carolina and Florida who wish them much happiness in their journey through life. Mr. and Mrs. Means took the afternoon train and after rambling a month will settle in their attractive home at McIntosh.

Mr. and Mrs. Means received a great many beautiful and costly presents from their relatives and friends. Mrs. Mary W. Evins, the bride's mother, gave a sumptuous dinner to the large crowd assembled at the marriage from Gainesville, Sampson City, Archer, Kirkwood, Tacoma, Micanopy, McIntosh and other points.

Alcohol will be used as a power in Cuba. It has been developed as a power in this country for many years.

Will some one write a book about "What we didn't know about the big insurance companies" six months ago?

The man who advertises in The Twice-a-Week Sun should bear in mind that it reaches 1,800 subscribers twice each week.

After many papers have ceased "slinging mud" in regard to the East Coast railway Key West extension, the company has got down to business and has commenced to "sling dirt" on the big enterprise.

The localities where wool is grown have numerous woolen mills, and it stands to reason that in the localities where cotton is grown there should be cotton mills. Is there any good reason why Gainesville should not have a cotton mill? Every cotton mill in the South is making money for the promoters.

The investigations to be inaugurated by W. R. Hearst in New York City will no doubt reveal some very peculiar work. If the frauds can be shown as stated, McClellan's election by the smallest plurality on record for any mayor in that city may be knocked out. Hearst has Jerome and Ivins to help him, and the bottom of the crookedness may be reached.

Whether The Index intended it for a joke or not, we are unable to state; but following an article in this week's issue of that paper, in which a series of resolutions are published complimenting Judge Wall for his fairness and impartial rulings at the term of the circuit court at Lake City, is an advertisement of a remedy for constipation all enclosed in the same cut-off rules.

"While out strolling last evening," says a reporter, "we passed a house from which emanated the inspiring strains of music from a piano and the throat of a charming young lady." The only words the reporter caught from the song were something about "dear mother." Passing on and turning down a side street the reporter saw through the kitchen window the dear mother with her arms buried almost to the elbow in a pan of dough, the sweat streaming down her wrinkled face and the hot range enveloping her. She was singing: "We'll Work Till Jesus Comes."—Exchange.

A feeding expert has figured amounts of corn it takes to produce various amounts of pork under normal conditions. One bushel of corn will produce 10 1-8 pounds of pork, from which you can easily determine whether it is better to sell corn or pork. Careful experiments have shown the following facts in regard to feeding corn to make pork: Fifty pounds of corn, fed ground and raw, make 15 pounds of pork. Fifty pounds of corn, fed whole and raw, makes 10 pounds of pork. Fifty pounds of corn, fed ground and fermented, makes 17 pounds of pork. Fifty pounds of corn, fed cooked and fermented, makes 20 pounds of pork.

FOREST RESERVES TIMBER.

The indiscriminate slaughter of forests has caused the Government to inaugurate plans for the operations in logging operations, and the increased demand for the purchase of timber from the forest reserves has called for detailed working plans for the more important timbered areas within them. In order to avoid delay without jeopardizing the future welfare of the forest, and that these working plans may be well considered, they are being made as rapidly as possible for those forest areas from which the sale of timber is probable in the near future. In many cases they are made before the actual application for purchase is received.

Those who purchase timber from the Government are required to observe Forest Service regulations in logging, which guard against waste and provide for the reproduction of the forest. Considerable variety exists in the character and requirements of the forests in any one reserve, so that each working plan must be based on a close study of local conditions.

When setting about the preparation of one of these plans the first question is, What areas in the reserve are adapted to the same scheme of management? After these areas have been selected they are thoroughly studied from every aspect.

The location of the timber is noted and a rough estimate is made of its amount. Then the character and condition of the stand are carefully determined. Its age, overripeness, injury from fire or insects, the possibility of improving it by logging, and the kind and amount of young growth are principal points, all of which must be taken into consideration in settling whether it is advisable or inadvisable to cut.

The question of markets, and the logging facilities, are also taken into account, as well as the present local demand for timber, the probable future demand and the kind of timber required. In connection with these problems attention must be given to the nature of the country, the accessibility of the timber, and the existing roads and drivable streams, because the actual value of the timber is in a large measure dependent upon the ease and economy of its removal.

Reproduction, by which alone the forest can maintain itself, is essential where logging is to be done. For this reason the reproductive capacity of the forest is noted with careful detail, and the effect which fire and grazing may have upon it becomes a question of the first importance.

The data, therefore, which the working-plan study has gathered form the basis of the terms of the contract in agreement with which the purchaser of Government timber removes the timber which he has purchased. These terms include the diameter limit below which the timber may not be cut, the number of seed trees of various species which must be left to reseed the ground, the maximum height at which the stumps may be cut, and the diameter to which the tops must be utilized, and other stipulations insuring clear, conservative logging. Especially, also, they provide for the disposition of the slash, so that the forest floor may safely be cleaned of inflammable material, on which uncontrollable forest fires might feed.

The restrictions imposed by the Forest Service upon timber purchasers are meeting with the intelligent approval of all who are performing logging operations under them. It is more and more clearly understood that they are necessary for the permanent good of the forest, that they are of a purely practical stamp, and that their observance means the continued productivity of the forest and, therefore, the husbanding of the timber supply and all that depends upon it.

STATE FAIR NOTES.

One of the most brilliant features of the opening day of the great Florida State Fair, to be held at Tampa November 15 to 30, will be a grand banquet and reception at the Tampa Bay Hotel, given by the Fair Association in honor of the newspaper editors of Florida, who have done more to make the Fair the great success it will be than any other agency. Members of the Legislature will also be invited to attend this banquet, as well as Governor Broward and other State and National officials. The opening exercises will be the most brilliant event of Florida's history. Any editor overlooked in sending out invitations is requested to so notify F. L. Huffaker, secretary, at once, as the list of newspapers on file at Fair headquarters is not complete, owing to the constant changes and increase in number.

Don't fail to attend the great State Fair to be held in Tampa November 15 to 30, as in every feature it will be the most successful State Fair ever held in the South. Every building on the Fair grounds, seven in number, has been completed and is ready for use. The buildings and grounds are the largest and most beautiful in the South. Governor Broward will conduct the opening ceremonies, and it is probable that Hon. Leslie M. Shaw, the distinguished secretary of the treasury, will assist him. The parade feature will be the grandest ever seen in the State. Extremely low rates from all sections of the State, and ample accommodations at reasonable rates assured the thousands attending. A bureau of information has been established at a central point in the city, from which visitors will be directed to pleasant homes, and men employed for the purpose will meet all incoming trains.

Forty of the finest amusement attractions ever brought South will be seen at the Florida State Fair, to be held in Tampa November 15 to 30. Principal among these will be the great spectacular production, "Fighting the Flames," which has never appeared before except at Coney Island and Toronto, Canada. Troop C., Twelfth United States Cavalry, the most noted in Uncle Sam's service, will also prove a great attraction, the maneuvers of the troop being given in connection with the great fireworks and electric production, "Eruption of Mount Pelee." Every attraction secured is novel and up-to-date, and absolutely nothing of an unclean nature will be allowed on the grounds. Neither will any gambling be allowed. Not less than 150 of the finest race horses in the country will enter the races, for which purses amounting to $10,000 have been offered.

Seven new business places have been built in this city within the past summer, and they are all occupied now. New concerns have opened up for trade, and it is apparent that these will all do a fair trade. All the new houses that have been built are also occupied, which shows that Gainesville is going ahead and the people have confidence in its future. While many people have complained of the unusually warm summer just past, the health of the city has been good, and there has not even been the least uneasiness from fear of anything that might be in the form of an epidemic or contagion. The health of Gainesville is in every way all right.

The people of Westville are surprised at the weather, as they have not had a frost this season so far.

Pensacola wants $5,000 to relieve the suffering in that city from the effects of the yellow fever.

Health is absolutely impossible if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, P. "I felt at once that I had at last secured the right medicine and I kept steadily improving. Within three weeks I was fully restored, and I am glad that I gave that truly great remedy a trial. I will never be without it again."

In a letter dated August 31, 1904, Mrs. Marsh says: "I have never yet heard the efficacy of Peruna questioned. We still use it. I traveled through Kentucky and Tennessee three years ago, where I found Peruna doing its good work. Much of it is being used here also."—Henrietta A. S. Marsh.

ARRESTED ON SERIOUS CHARGE.

Two White Men in Jail for an Alleged Attempted Assault.

Atlanta, Nov. 10.—Charged with attempting to assault two young girls, Walton Gulley, aged 20, and Jake Smith, aged 16, came near being lynched by a mob at Riverside, on the river trolley car line.

A crowd of angry citizens had gathered and but for the work of coolet heads who got the youths off into the woods from there to the car line the prisoners would probably have been roughly handled.

Ida and Belle Collins two young girls who live near Riverside started to th eWhittier mills at the river to go to work for the night. About 7 o'clock as they were passing through a stretch of woods on a lonely road two men met them. They were seized and an attempt made to drag them into the woods away from the road.

The girls struggled, fought and screamed, and the men were frightened off.

Hastening back to their home, the girls, who are sisters, told what had happened, and they said they knew who the men were, and that their names were Jake Smith and Walton Gulley, two white youths. The latter works in the Whittier mills.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. J. W. McCollum & Co.

DECLARES SONS ARE INNOCENT.

Elder Rawlings Admits His Guilt—His Sons Make Statements.

Valdosta, Ga., Nov. 10—J. G. Rawlings and his sons have been informed of the decision of the supreme court affirming the decision in their cases and reversing decision in the case of Frank Turner.

Milton Rawlings was reading a paper when the news was broken to the crowd in the jail, and he did not look up.

J. G. Rawlings said he thought the decision was right in the case of Turner. He then repeated what he said the other night about wishing to see his entire family hung, but explained that he thought good might come from their martyrdom. He declared his boys were innocent, and that he had used every precaution to keep them from knowing of his conspiracy with Alf Moore and Joe Bently to "put old Carter out of the way."

Milton, Jesse and Leonard Rawlings then spoke up and declared their innocence. Milton said that he would like to see Alf Moore burned until he would tell the truth. All of the boys were bitter against the negro, and the Carters, who they declared had sworn their lives away. It is understood that Alf Moore cannot be hung until Frank Turner is disposed of, as he is the main witness in the case. The Rawlings are not witnesses in the case unless on the side of the defense, and it is not known what effect the new trial of Turner will have upon their sentences and execution. Turner will be tried again at the regular term, week after next.

"For the past five years, however, on the slightest sign of a cough or cold, I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. MANY ARE ATTENDING REUNION.

Georgia Veterans Hold Largest Meeting in History of Organization.

Macon, Ga., Nov. 10.—Wednesday marked the beginning of possibly one of the largest and greatest reunions of veterans comprising the Georgia division. More than 3,000 people are in Macon to attend the exercises of the two days. Gray-bearded men from the simple walks of life to the most distinguished the staff affords are here in the ranks of the many camps represented. They came yesterday evening and last night, and up to a late hour this morning. The scenes at the depots were striking. Hundreds of grizzled veterans stood about the streets near the depots all day greeting each other sometimes with shouts of gladness and at others with tears.

People who witnessed the handclasping of these old warriors seldom have occasion to witness such exhibitions of brotherly love. As they alighted from their trains and formed lines of march, camp after camp was greeted with shouts from every man who wears the gray. As the banners, the Stars and Bars, went forward, hats and caps went up inthe intense enthusiasm. Bands and drummer boys headed the larger camps, coming from Atlanta, Augusta and Savannah, and the city has been filled all day with martial music and war dirges.

New Commander of Sons Elected.

Macon, Ga., Nov. 10.—The annual reunion of the Sons of Veterans of Georgia is in session here. In the absence of Commander Edwards, of Savannah, Adjutant F. M. Lanier, of that city, presided. W. Lamar Williams, of Macon, was chosen commander of the division and W. W. [illegible]oman, also of Macon, was made adjutant. The committee on by-laws and constitution reported. W. A. McKenzie, of Macon, was chairman of this body. The document was adopted as read. The sessions were held in the city council chamber and many ladies attended, these being sponsors and maids of honor. This body is now well organized and will be a permanent organization.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." J. W. McCollum & Co.

Woman Burned to Death.

Macon, Ga., Nov. 10—Mrs. N. Huffman suffered a horrible fate here as the result of burns received at her home in South Macon. Her husband, N. Huffman, attempted to kindle a fire by applying gasoline when a terrific explosion followed, throwing the oil from the frate, knocking the man backwards and setting fire to the clothing of Mrs. Huffman. Before Huffman could recover and assist her, she was enveloped in a sheet of fire. Her screams were the first warning to the husband and as soon as he could regain himself he fought desperately for her life. He was badly burned when the clothing was free from the fire.

Alabaman Pardoned by Governor.

Montgomery, Ala., Nov. 10.—J. F. Shepperd, of Calaoun county, has been pardoned by Governor Jelks. He had served half of a thirty-month term for assault with intent to murder. In indorsements of the application for pardon, it was strongly charged that Shepperd's conviction was due to political prejudice. Shepperd is a Democrat, and it is charged that his conviction was due to Populists, against whom he had been active politically.

Powers Remove Troops from Chile.

Berlin, Nov. 9.—All the powers have agreed to remove their troops from the province of Chile. Although the United States has no troops there the American government has notified the powers as an act of courtesy of its agreement with the decision arrived at.

Gotham Gamins for Texas.

St. Louis, Nov. 10.—Boyish faces aglow with expectations of attractive Texas homes were prominent last night at the union station when former New York gamins to the number of two score or more, came in over the Wabash in a special car and after several hours' wait, merrily hopped once more onto their traveling home and were soon spinning over the Missouri Pacific toward the Lone Star State. The boys are proteges of the Children's Aid society of New York and were accompanied by its superintendent, R. M. Brace, with E. J. Wendell and J. C. Grayeur, two other officials of the society.

Best Liniment on Earth.

Henry D. Baldwin, Superintendent City Waterworks, Shullsburg, Wis., writes: "I have tried many kinds of liniments, but I have never received much benefit until I used Ballard's Snow Liniment for rheumatism and pains. I think it the best liniment on earth." 25c, 50c and $1. Sold by W. W. Johnson.

Prince of Wales in India.

Bombay, Nov. 10.—The Prince and Princess of Wales arrived here today on board the British battleship Renown. They were greeted with salutes from the forts and warships and were accorded an enhusiastic reception by the immense crowds along the water front. The city is filled with visitors from all part of India. The towns people alike are bedecked in holiday attire.

Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nervine has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored.

We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so bad that we sent him to Longcliff hospital for the insane, at Logansport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 30, 1902, in an awful condition. He had lost his mind almost entirely. He hardly knew one of the family; could not even find his bed; was a total wreck. He had from 8 to 10 fits a day. We were urged to try Dr. Miles' Nervine, and before the first bottle was used, we could see a change for the better. We have given it to him ever since, and he has had but two very light spells since last August, 1903, and then he was not well other ways. We pronounce him cured, as he can work and go anywhere. If any one wishes to ask any questions concerning this, they are at liberty to do so."
H. H. BUNNELL, Lincoln, Ind.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Keep Your Head Clear

And your stomach free from Indigestion if you would be happy with your family and your fellow-man.

The surest thing on earth to get a man's system "out of whack" is heavy, soggy bread, which is caused by several reasons: First, the material may not be good; second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in many instances it is so much more palatable.

EN IN SKIRTS.

e World All Around They re In the Majority.

s one thing presumably cer- is earth, in the opinion of , it is that skirts are essen- inine and that the special masculine attire is a bifur- ment. But nothing is fur- the truth. To this day the of the male element of the e, so far as it wears clothes skirted. And in past times, ry long ago, a gown down t was the correct wear of re- ty in civilized Europe.

cdote told of St. Louis, king e, illustrates this well. That was the stoutest of warriors, hom no one knowing anything ould dream of accusing of be- minate, but on one occasion he offered to exchange costumes richly dressed female relative d blamed him for wearing the ntious garments he usually af- which, she said, were unsuited g. But she thought his gown n for her, so declined the offer. it is impossible to imagine a e St. Louis even suggesting thing if the dress of men and had not been practically iden- cept for war and hunting. TWO MAIDENS.

Little Fable, but One That Points a Moral.

there Were two Maidens who to Catch a Nice Young Man, so Was a Good Thing. And it False Start in the Eyes of the erning, for the One was Exceed- ir to Look upon and Dressed ly, while the Other was Plain of nance, and her Rat was Always g through her Pompadour. The Girl Smiled Sweetly on the Nice Man, who was also a Good and Talked to Him till She Daz- m with her Beauty and charmed with her Wit. The Plain One Wonderingly at him and Made Talk to her of Divers Things, She listened, Entranced at his m and Learning. He took the Girl out Riding and to the The- nd Bought her Candy and Flow- nd All the Knowing Ones said ad struck a Winning Gait on the Stretch, when One Day he Mar- he Plain Girl and took Her on an mobile wedding Tour of Europe. JOHN PAUL JONES.

ritish View of the Hero of the Bonhomme Richard.

hn Paul, the Kirkcudbright mar- gardener's son, who elected to be ous as Paul Jones, has long ceased e the interesting personage he was the eyes of the naval authorities of country when in command of a ten ex-East Indiaman known as the e de Duras and rechristened the nhomme Richard he was a holy ter- r in the firth of Forth, and when he d engaged and captured a British gate in British waters after one of most singular sea combats on rec- d.

The some time "blackbirder" and uggler whom the Russian Catherine corated and advanced somewhat per altum to the grade of admiral was a raitor of course in the view of the ritish government, but none the less thorough seaman of quite unusual alent and originality, with a bulldog ourage and tenacity to match. The Captain Jones, too, who sent Lady Sel- kirk back her plate with his compli- ments had the instincts of a gentleman.

More than the other countries he erved America has recognized his mer- its.—Pall Mall Gazette.

Sealing Wax.

It is singular enough that the oldest known printed recipe for making com- mon sealing wax, published at Augs- burg in 1579, describes the use of al- most the same ingredients as those at present employed. Rosin, the whitest that can be obtained; venice turpentine and vermilion are the components. For black wax, lampblack is to be added; for blue wax, smalt, and for yellow, orpiment. When sealing wax was more widely used than is the case at present, scented wax was an article frequently on sale at fancy stationers.

Doubtful.

Client—Is there a cause so bad or an individual so infamous that your serv- ices could not be obtained? Lawyer (thoughtfully)—I cannot say offhand. What have you been doing?—London King.

Do not be afraid of night air. Fresh night air is better than stale bottled day air.

Reasoning Power of Animals.

Men apparently conceive ideas from a "clear sky," but such genius could not manifest itself were not the mind already highly cultivated by much con- scious effort—reasoning—and experi- ence. On the other hand, animals and small children become conscious of much knowledge by merely witnessing the intelligent movements of others, and in time, without thought or effort on their part, they suddenly discover that they also are competent to do the same thing, or, in other words, they begin to imitate. It is a general im- pression among psychologists that ani- mals probably do not reason; they have no ideas as we have.—A. F. Shore in Scientific American.

Won't Eat Possum.

A human being is a queer animal after all. We eat possums and pay fancy prices for them, yet a vulture will not touch one. During a long sea- son of snow some years ago a farmer said the buzzards in his locality were almost starved, and to test the mat- ter he killed a possum and put it out where he could be easily found. The vultures would not touch it, though they examined the carcass. Not satisfied, the farmer cooked another possum up brown and spread it out, but the buz- zards declined the feast.—Greensboro (Tenn.) Record.

Fourpence a Grab.

London possesses a curiosity in the Southwark eel market, which is said to have been held regularly for over 300 years. It is little known except in the neighborhood where it is held—viz, near Blackfriars bridge. Originally the eels sold were caught off Blackfriars bridge, but now they come mostly from Holland and Scotland. They are not sold by weight, as is usual, but by the handful, the price being "fourpence the grab."

A Bird That Likes Pretty Things.

The primal parent bower bird was born with a vain streak. This remark- able bird decks its home nest with all sorts of ornaments, feathers, bits of wood, etc., and when it is in captivity any objects which its keeper may throw in the cage are utilized for or- naments—pieces of cloth, glass and other rubbish.

A Personal Matter.

She—How is it you were not at the Westends' reception? He—I stayed away on account of a personal matter. She—May I ask what it was? He—Will you promise to keep it a secret? She—Yes. He—Well, they failed to send me an invitation.

Neuralgia Pains.

Rheumatism, lumbago and sciatic pains yield to the penetrating influ- ence of Ballard's Snow Liniment. It penetrates to the nerves and bones, and being absorbed into the blood its healing properties are conveyed to ev- ery part of the body, and effect some wonderful cures. 25c, 50c and $1. Sold by W. M. Johnson.
